SATs Results

Dear parent / carer,

I am writing to let you know that there is a delay with this year's Key Stage 2 SATs results. This issue is affecting all schools in the country. SATs results were expected to be released today; however, due to an issue with the online system that is used to collect the results, we will not get your child's SATs results until Thursday 16th July. Please be assured that this does not affect the accuracy of your child's results.

Because your child's SATs results have been delayed, we will also delay your child's end-of-year report. We will share your child's results and end-of-year report with you on Friday 17th July. Please come to school between 9:00am and 12:00pm on Friday 17th July to collect your child's results and end-of-year report. If you do not come to school on this day, we will send your child's results and end-of-year report to you in the post.

Thank you for your understanding.

Many thanks,

Richard Morris
